

IQ+ CABINETRY

STANDARD FEATURES

Framed Box

Multi-layered finished doors have a solid wood frame and MDF center panel. MDF center panel minimizes expansion and contraction for minimal cracking.

Mortise and tenon door and drawer joints for robust and durable construction.

The 6-way adjustable soft-close hinges allow doors to close silently and smoothly.

3/4" thick plywood shelf has six finished sides and four metal shelf clips to withstand heavy items.

Full access frameless cabinets allow for ample storage.
